MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Conversation
with Hilda Schreiber, OMB

STAT

1. On 1 September 1983, [redacted] Liaison Division, OLL, asked that I schedule a meeting with Hilda Schreiber to discuss OMB and GSA efforts on the draft legislation concerning federal employee relocation allowances. (request attached) I called Ms. Schreiber to request the meeting and explained to her the purpose. Ms. Schreiber responded that she saw no need for this meeting and felt it would be a waste of everyone's time because she could tell me no more than what she had relayed to me a few days earlier.

2. OMB is currently waiting on the views of the Office of Personnel Management and hopes to meet with GSA representatives the week of 12 September. Hilda indicated that this is a very "hot" issue which has the attention and concern of all agencies in the government. OMB is working diligently on the bill and they hope to have it ready for introduction by the end of this first session or the beginning of the second session of the 98th Congress.

3. Ms. Schreiber also indicated that it would not be appropriate to show us whatever views OMB had received from other agencies within the Intelligence Community.
